

Dominion Bureau of Statistics
(Issued April 24th, 1941).
Registrations of Births, Deaths and
Marriages, March, 1941

The Dominion Bureau of Statistics issues today the number of registrations of births, deaths and marriages during the month of March, 1941, in 67 cities and towns of Canada having populations of 10,000 and over.

Births registered in these cities and towns in March numbered 8,664, compared with 8,228 in the same month as compared with 7,944 births, 4,900 deaths and 3,192 marriages in March of last year, showing increases of 9 per cent. in births, 3 per cent. in deaths and a decrease of 4 per cent. in marriages.

Births registered during the three months (January-March of this year) totalled 25,728, during the same period last year 10,590, an increase of 21,568 births, 13,719 deaths and 8,835 marriages during the corresponding three months last year. This shows increases of 154 per cent. in births, 7 per cent. in deaths and 6 per cent. in marriage.

Crude Oil Production

About 90 per cent of Canada's total production of crude petroleum comes from the Turner Valley field in Alberta. A new record for Canada was set in 1940 with an estimated output of 8,700,000 barrels, as compared with 7,886,301 barrels in 1939, according to the Industrial Department of the Canadian National Railways. There are now a total of 131 wells in production in Turner Valley, 96 of which were completed last year.

This is a war for existence. It is war to the death. It is a war to win or to lose.

A Good Citizen

United States Good Citizen, Has Proved His Right To Title

The Montreal Star says: This is a true story of a good United States citizen who is also a good Canadian. A year or so ago a young lieutenant was called the local income tax office. He explained to the official who interviewed him that he had been in uniform in Canada and had enlisted to leave his 1930 income tax before leaving for Europe to drive an ambulance for the French Army.

The official was interested and ventured the remark that his visitor was giving him a good deal to go "over there." "It is the spirit of adventure," he asked. "Not at all," the lieutenant replied. "I am not a fellow compels one to do something that is not in his nature." He then paid his tax and left.

The official promptly forgot the visitor's name, but not his personal history. Later he read a magazine article dealing with the experiences of United States ambulance drivers in France during the German invasion. Reading that story of the blood, sweat and tears, he wondered what had become of the young American.

One morning in a recent week the tax official walked out of his office to the street where he was waiting for the counter about the young American, as he found and untroubled as a year ago. "Do you remember me?" he asked.

"Remember you?" said the official, "I have thought of you a hundred times."

They talked of France, not of the American, in reply to questions. He did not think the magazine had done him justice. In fact, he had written it himself.

"Well," said the income tax man, "I am glad to hear of you."

"You are, it's like this," said the American, "I was in Canada for five months in 1940 and last year we only had a few days of war. I was in my 1940 tax before I joined the United States Navy."

He paid the tax and left.
